Reference: Docket Number #05-44481 (RDD)  
Objection: June 1, 2009 Master Disposition Agreement, Article 9.5.11

As a retired Delphi Salary Employee, as of 3/1/09, I strongly object to the termination of our Severance Payment Entitlement.  
This entitlement is by contract (Separation Agreement), and I waived certain rights (Release of Claims) in order to receive this Severance Payment.  
If for any reason I thought there was a possibility of it being taken away I would never have signed papers to retire!!!  
I'd planned on my Severance payment to get bills in order by the time I was nearing Social Security age. Also, to pay 100% of my Medical Insurance, that Delphi announced (after retirement papers had been signed) that they were no longer paying their 50%.  
The total liability for continued severance payments is low, and the liability is short term (expires - July 2010).  
I and all the other retirees have been affected by Benefits Termination and pending Pension Reduction (transfer to PBGC).  
This legal, enforceable contract was entered into during bankruptcy, and the Severance Payments are a liability (not a Delphi provided benefit).  
This is a valid / binding / legal contract and I would expect it to be honored.

Sincerely,

Nancy Freeman
